## MAC. DEFEATS MCGILL REDS IN BASEBALL

Game Snappy From Start To  
Finish.

SCORE: 29-21.

Parker and Pewtress Star For  
Mac; Wallace and McGillis  
For Reds.

In a schedule game played last night in the High School Gym., Macdonald defeated the McGill "Reds" by the score of 29-21. The game was close and hard fought from start to finish. Macdonald won because of Dunsmore's fine pitching and McGill's errors in the field, also because they would hit in the pinches. Wallace and McGillis played the best game for McGill, the former being especially brilliant, while Parker and Pewtress starred for Macdonald.

In the first inning Macdonald failed to score while McGill batted in five runs but Macdonald came back strong and scored eleven runs in the second. The game continued fairly even until the fifth inning when Macdonald scored four runs. McGill, however, staged a rally in the next inning and excitement ran high. Crankshaw hit safely and stole second and third. He scored on McGill's hit to right. Wallace sent McGillis in by a two bagger and scored himself on Sigler's out to first. Hibbard and Jones both hit safely and scored on errors. This made the score 16-14 for Macdonald. However, the Reds made several costly errors and Macdonald piled up eleven more runs. Sigler poked out a homer run with Wallace on base, and in the next inning McGill scored four runs. Wilson weakened for a while in the last inning, allowing the visitors to score three runs, while Dunsmore held the McGill boys scoreless, ending the game with Macdonald on the heavy end of a 29-21 score.

## ENGINEERS MEET HAS BEGUN HERE

Dr. Ruttan and Dr. Eve Pre-  
sent Papers — Northern  
Electric Entertain Insti-  
tute.

The Annual and Professional meet-  
ing of the Engineering Institute of  
Canada is now taking place in Mont-  
real, and there has been large regis-  
tration from all parts of the country.  
The meeting began on the 27th at the  
Windsor Hotel, when the annual busi-  
ness meeting was held. The Recep-  
tion and Dance was held Tuesday night  
and was well attended.

Yesterday Dr. Ruttan and Dr. Eve of  
McGill presented papers on the various  
aspects of Engineering education, and  
this was followed by a trip to the Nor-  
thern Electric Company's work, where  
the members were entertained at lun-  
cheon. The meeting is being con-  
tinued to-day when various papers will  
be read on "Engineering Activities of  
the Province of Quebec." The meet-  
ing will close to-night with an infor-  
mal smoker in the Windsor Hotel.

A large number of McGill students  
have taken advantage of this oppor-  
tunity to hear authorities on Engi-  
neering subjects.

### LA SOCIETE FRANCAISE.

Members of the Societe Francaise  
yesterday attended the matinee per-  
formance of "L'Aiglon" at the Canadian  
Francais Theatre.

"L'Aiglon," the famous play of Ros-  
trand, tells the tragedy of Franz, Duc  
de Reichstadt, the son of Napoleon  
Bonaparte — his aspirations, his griefs  
and his attempt to regain the throne of  
France. As Franz, Edgar Becman was  
superb. Though the actresses were  
disappointing, Becman was incompar-  
able.

The seats procured were in the first  
and second rows of the orchestra, so  
that everyone had an excellent view of  
the under side of all the furniture and  
of the delicately tinted grease-paint  
the actors wore — shades ranging from

## C.O.T.C. ARE READY WITH NEW COURSES

Special Courses in Military  
Instruction Opens To-  
Morrow.

GOOD INSTRUCTORS.

Medical Services Show Large  
Registration For All the  
Courses.

The first lectures in the Special  
Courses of Instruction of the C.O.T.C.  
takes place to-morrow at 5.15 p.m.,  
when Lt.-Col. Creelman, D.S.O., will  
lecture on Artillery Organization, in  
Room 33 of the Engineering Building.  
All men who have served overseas will  
be interested in those as well as those  
who desire to receive the best instruc-  
tion that can possibly be given along  
these lines.

The first lecture in the Medical Ser-  
vice Course will also be given to-mor-  
row in the New Medical Building,  
Lecture Theatre "A." Brig.-Gen.  
Birkett will open this class with a few  
remarks, and the first lecture on "The  
Medical Battalion Officer" is to be  
given by Lt.-Col. Scrimger, V.C.

The Medical Students are evidently  
realizing the great value of this in-  
struction. Judging by the numbers  
which are enrolling. Medical men  
will realize the benefits to be derived  
from instruction on such important  
subjects as "Sanitation," "Ambulance  
Work," "Clearing Stations," and "Base  
Hospitals," by Canada's leading au-  
thorities.

Owing to the small enrollment to  
date in "Self Duties," it has been de-  
cided to postpone the first lecture by  
Brig.-Gen. E. de B. Papet on "Staff  
Duties Generally" until February 9th,  
to allow a larger registration.

Other excellent courses in these  
lectures are Engineering and Wireless.  
There are many men in the University  
of this branch of the work, and this  
will give them the chance of broaden-  
ing their scope of knowledge along  
these lines.

The number of applicants for the  
C.O.T.C. and Special Lecture Courses  
to date are:  
C.O.T.C.—48.  
Artillery—20.  
Engineering—12.  
Aviation—46.  
Wireless Telegraphy—27.  
Machine Gunnery—18.  
Medical Services—79.  
Staff Duties—18.

While the above is the actual enroll-  
ment it is to be hoped that many more  
students will avail themselves of these  
excellent opportunities. The lists are  
not yet closed, but the officers in  
charge desire to get the total number  
as soon as possible in order to facili-  
tate arrangements.

The opening lectures by Lt.-Col.  
Creelman, D.S.O., and Col. Scrimger,  
V.C., should be very interesting in-  
deed. Coming from two men who are  
graduates of McGill and who won fame  
in both military and civil life, the  
Special Lectures will be given a good  
start.

Lt.-Col. Creelman who lectures on  
the Artillery department, and will ex-  
plain the organization, is well-known  
to all students. Col. Creelman was  
decorated with the D.S.O. for distin-  
guished service overseas.

Everyone is aware of the bravery  
displayed by Col. Scrimger in winning  
the coveted Victoria Cross. Besides,  
he is an authority in his line of work  
and his help will lend decided impetus  
to the Medical Services Course.

### MCGILL VS. VARSITY.

game with Toronto, which will be

lows:

pale cerise to darkest navy blue. By  
the end of the third act it was dis-  
covered that the loud knock heard just  
before the curtain rose after each in-  
termission was for the purpose of tell-  
ing the musicians to stop playing.  
This they immediately did, usually  
stopping in the middle of a bar. But  
these were small matters and merely  
served to add to the entertainment.

It was regretted that Miss. Touren  
could not accompany the Societe, but  
another time it is hoped that she may  
share their enjoyment; and, if the de-  
sires of those who went are realized,  
there will surely be "another time"  
soon.

## MCGILL VISIT TO BORDEAUX INSTRUCTIVE

Party Under Mr. Ingleson  
Makes Interesting Journey.

GREAT INSTITUTION.

Governor Landriault Shows  
Party Sites Of Interior.

Anyone venturing into the Central  
Y.M.C.A. about one o'clock yesterday  
afternoon would have been astonished,  
first by the large crowd assembled  
there and secondly by the strange ru-  
mours of Bordeaux which filled the air.  
He would have been probably still  
more astounded by the alacrity which  
all displayed in their hurried exit  
when the hour of departure arrived.  
However, such feelings on the part of  
a spectator would be entirely without  
foundation, for this party was merely  
intending to pay a voluntary visit to  
the prison, solely for the purpose of  
inspection and were not leaving on a  
compulsory trip by will of the autho-  
rities.

But to make a long story short.  
After much jostling and shoving on the  
street car, and after a brisk mile walk,  
the contingent arrived at the door of  
the Bordeaux jail. After being ad-  
mitted they were taken in charge by  
Governor Landriault, who proceeded  
to show them over the premises.

Governor Landriault first led the  
men to the observation platform, the  
centre of communication, with all the  
cells, and the post from which guard  
was maintained over the entire build-  
ing. The spacious and trimly kept kit-  
chen, the modern power plant and fur-  
naces, the many chapels and places of  
worship, the bakeries, the laundries,  
and even the scaffold looking so som-  
bre, yet so awe inspiring. All came  
under the eyes of the visitors.

The party travelled down many a  
lengthy corridor, lined with prisoner's  
cells, followed the Governor up many  
a flight of stairs, and crowded through  
many a narrow doorway, until they  
finally found themselves back at their  
starting point.

After expressing their appreciation  
to Governor Landriault, and taking a  
last glance at this wonderfully effi-  
cient institution, the men returned to  
the city.

Mr. Ingleson made a statement to the  
"Daily" that there would probably be  
another of these tours made next Wed-  
nesday, but that a definite announce-  
ment will be made at a later date.

The thanks of all who attended is  
due to Mr. Ingleson, Membership Sec-  
retary of Central Y.M.C.A., who did  
all in his power to make the trip en-  
joyable for all the men.

## WHITES TO PLAY M.A.A.A. TO-NIGHT

Indoor Baseball Will Be Fea-  
ture At Peel St. Gym.

Another game will be played in the  
City Indoor Baseball League to-night,  
when the McGill (White) team meets  
M.A.A.A. Seniors in the M.A.A.A. Gym-  
nasium at 9 o'clock. Judging by the  
way both teams are working the game  
promises to be a snappy exhibition of  
the nine inning sport. So far the  
McGill teams have not been supported  
in the way of rooters, and it is hoped  
to-night that a good turnout of the  
yelling society will be on hand to help  
bring the bacon home to the Red and  
White team. As there is no charge at  
the door and no silver collection taken  
it is hoped a large number will be  
on hand.

### A SHORT MUSICAL EVENING.

This evening, at 6.45, the College  
Literary Society are providing a short  
entertainment for the benefit of the  
student body. It is most fitting at this  
time, for we have a number of visitors  
at the College this week in the Farmers'  
Short Course. The entertainment will  
also serve as an introduction of the  
Science Short Course to the "Lit." The  
programme, as listed, will be of local  
interest, but will no doubt be of interest  
to all.

## THE MOCK PARLIAMENT

Probably the greatest project, which has been launched at the University during the past four years, will be inaugurated to-night when the first session of the Mock Parliament will be held in the Union. No other activity with the exception of the major intercollegiate athletics, is deserving of more support and encouragement. After months of preparation the opposing parties are prepared to take the floor and wage intellectual warfare, discussing the momentous problems which are now facing the country and which are being dealt with by the Federal Government at Ottawa.

The imposing pomp and the formality customarily associated with the opening of Parliament will be strictly adhered to, and the traditional and magnificent procedure will not be minimized to the slightest degree. The speech from the throne and the motions following have been carefully prepared and the serious and weighty lines have been interspersed with touches of humor.

Great interest in the coming event has been expressed both in and out of the University, and the popularity which it achieved in ante-bellum days, when it was one of the main features of the college year seems not to have waned. Many outsiders are to be present and it is likely that there will not be sufficient space in the ball room of the Union to accommodate the large audience which is anticipated. The city newspapers have applied for and received permission to report the proceedings and it is expected that they will give it the prominence it was accustomed to receive in past years.

As the students of to-day will become the intellectual leaders of to-morrow, and as this with the affluence and position which will be the lot of many may place in the hands of some the reins of government of the country, the opinions expressed and the results of the voting will be received with great interest. Again as the students of McGill are thought to be and should be well informed on all matters of grave interest to the country, and because their training is conducive to clear and logical thinking, their decisions should be indicative of the opinions of the country.

The great training in impromptu public speaking which follows upon attendance at and participation in the Mock Parliament cannot be over emphasized. The subjects under discussion, unlike those in a debate, are reached without previous notice having been given and those who rise to speak must do so without preparation.

The proceedings to-night will begin at eight o'clock and judging from present indications the large hall will be well filled long before that hour. Every undergraduate should be present at this first meeting which will be very impressive.

## ENGLISH AS A WORLD LANGUAGE

Some time ago the board of the Peace Congress of the North issued a question to the professors of languages at the universities of different countries in order to ascertain which language would be the most suitable and have the greatest prospects for acceptance as a universal language for correspondence and conversation, side by side with the language of the country in question. Nineteen answers have been received up to date, and among these, 13 are opposed to the artificial languages—Ido, Esperanto, Volapuk—and express the opinion that the English language has the greatest prospects of being accepted as the universal language. Besides this, two have declared for French, one for German, one for Esperanto, and three for Ido.

The professor in Sanskrit and "comparative language research" at the Lund University, Nils Elensborg, has made the following statement: "For my part, I am convinced that under present conditions, English would be most suitable, and have the greater prospects of being accepted as an international world-language."

It is spoken by those two nations, the English and the Americans, which, after the victory of the Allies, will play a leading political part to a still greater extent than heretofore. It is also the trade and business language mostly used, and besides, is the widest spread tongue all over the continents. The study of this language would not only serve a general practical purpose, but also become a medium through which a more intimate knowledge of a literature which, perhaps, contains the most important educational value conceivable.

Similar statements have been made by Archbishop Nathan Soderom and the Bishop of Copenhagen, N. Osterfeld; Mr. Carl Benedicks, professor at the Stockholm High School; Mr. Charles L. Lange, secretary-general for the International Union; Mr. Wilhelm Gronbeck, professor at Copenhagen University; Mr. G. C. Uhlenbeck, professor at Leiden University; Mr. Josef Meek, professor at Graz University, and others.

## NOTICES

Members of executives and others are requested to look under this heading for notices of all futurities. Each notice is absolutely official. The Editor will not be responsible for errors in articles unless the time and date are written out in full when they are sent in.

### BASKETBALL PRACTICE.

All players are requested to turn up for practice at 6 o'clock to-night. The Seniors will be given a good work out preparatory to their intercollegiate game on Saturday afternoon at three o'clock. The Senior City League team is being reinforced and they should make the intercollegiate team go the limit. Doug. Hyndman is turning out again and Pringle Seath has shown his usual good interest in college athletics by promising to help round out the Senior five. R. R. Fitzgerald will, turn out regularly from now on and if he can make his old time form he will be a big asset to the team. The Junior team is being entirely re-organized and the following are expected to practice to-night: Mendelsohn, Brown, Powell, Johnson, Bussiere, Root, Schwartzman.

### SCIENCE '22.

Hockey practice on the Campus rink to-night, 7.30 to 8.30. All up. This is the last practice before our game against '23.

### MED. '24 PRACTICE.

Med. '24 hockey practice from 12 to 1, Thursday, Jan. 29th, 1920. Everybody up as it last practice before first game.

### WRESTLING PRACTICE.

There will be a wrestling practice at 5.15 in Union.

### INDOOR BASEBALL.

The McGill (White) Indoor baseball team plays M.A.A.A. at 9 o'clock to-night in the M.A.A.A. gymnasium, Peel street. The following men will please be on hand about 8.45 for a little warm up before the game and to get used to the lights: Wilson, McDonald, Blaisell, Crain, Root, Parker, McKenzie, Parlow, Thompson.

### BILLIARD TOURNAMENT.

The entry list for the forthcoming handicap billiard tournament will close to-night at six o'clock (6.00). Owing to the large number of entries the list has been kept open longer than was expected, in the hope that a record number of players might sign up and that all might have an opportunity to do so. The handicap list will be posted shortly after all entries have been received.

### UNION DANCE.

There are still some tickets on sale for the Union Dance. If these are not sold by Saturday at noon the subscription list will be opened to the graduates, many of whom wish to attend.

The following students in the Faculties of Arts, Commerce and Law are required to present themselves for medical re-examination in the Examination Room, East Wing, Arts Building, on Thursday, January 29th, between the hours of 5 p.m. and 6.30 p.m.:

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

Jan. 28th, 1920.  
To the Editor, McGill "Daily."  
Dear Sir:—

I would like to call to your attention the fact that a series of inter-class hockey matches are commencing. The men of the various classes are turning out in goodly numbers and showing high interest in the coming games. But due to negligence on the part of the authorities there is no equipment at the Campus rink for these teams. There might at least be kept there a few odd sticks, a puck and a goal-tenders' outfit. This oversight on the part of some one does not tend to encourage the ordinary student to take up the sport seriously. I trust that there will be some provision made to allow these men the chance to show their ability and perhaps develop into athletes who may ultimately represent the College.

I am,  
Yours truly,  
A. V. F.

To the Editor, McGill "Daily"

Dear Sir:—  
I have read with much amusement not unmingled with some concern for the writer, Mr. Grier's letter in to-day's "Daily." It is an open secret that I am the "distinguished professor" who dared to suggest that Mr. Stitt Wilson's addresses may have given our Theologians a jolt.

In spite of my close connection with the Arts Faculty, I do not seem to remember Mr. Grier, and I am thus unfortunately unable to return his compliment and call him a distinguished student of McGill; but I may assure your readers that if Mr. Grier had ever been a student of mine, he could not have left my classes without some improvement in his manners and a general chastening of his language.

Many hard things have been said about our theological friends in the past. Perhaps Mr. Grier will remember the "jolt" he must have experienced—or was he impervious on that occasion—when a former secretary of the McGill Y.M.C.A. frankly stated his opinion of the mentality of a good many of our theologians. I am not endorsing Mr. Corbett's view; all I want to know is why I am singled out for castigation, while we do not hear the faintest squelch about Mr. Corbett's railing indiscretion.

Mr. Wilson tells us that the only important thing is the establishment on earth of the Kingdom of God based on social justice. Nothing else matters. Greeds are of no importance, dogmas have little meaning. Now my proposal to Mr. Grier is this. It appears he is to be licensed in spring to preach the Gospel. When the authorities ask him, as an indispensable preliminary condition to subscribe to a pretty formidable list of dogmas, he should boldly take up the Wilsonian attitude and refuse to sign anything beyond a statement that he will seek to establish the Kingdom of God on earth. Let me know the result of the jolt.

Mr. Grier's theology may not have been shocked by Mr. Wilson's references to the Sacrament of the Lord's Supper. But Mr. Grier's Presbyterianism by no means exhausts all the possibilities of theological thought, and I shall indeed be surprised to learn that the majority of good Anglicans present were not severely jolted by the sentence: "It is more important that everybody should go to bed with a full stomach than that every man and the Communion every month or, for every woman in this city should take that matter, every day."

For suggesting that these and similar utterances may have jolted our theologians, Mr. Grier, with the want of Christian charity which unfortunately characterizes some unworthy gentlemen of his cloth, consigns me to hell. Mr. Grier has not even begun to be a Christian.

Yours truly,  
H. WALTER.

### OVERDONE.

Three negro soldiers in France were engaged in the great American pastime of slinging it.  
"Will Johnson, wat yo' business back in de States?"

## R.V.C.'S PREPARED FOR QUEEN'S

**Athletic Meeting Was Held Last Friday in Common Room.**

A meeting of the R. V. C. A.A. was held in the Common Room, Friday, at 1 p.m., to arrange for the entertainment of the Queens Basketball team. A splendid programme was suggested by the Athletic Executive, for entertaining the visiting team, and this programme was accepted by all. To carry out the plans the following four convenors were elected:

Convenor of the Billiards Committee—J. Nichol.  
Convenor of the Entertainment Committee—H. Macintosh.  
Convenor of the Refreshment Committee—M. Macdougall.  
Convenor of the Financial Committee—The President and Secretary-Treas. of the A.A.

Each convenor will choose her own committee. The Queens' team arrives in Montreal Friday, Feb. 6th, at 5 p.m., and will remain here until Sunday morning. The basketball match will take place on Saturday afternoon, when it is hoped that all interested in basketball will be present. As this is a unique event of the R.V.C. basketball season, nothing will be omitted that will add to its success.

After the plans had been discussed, and the convenors elected, a letter was read, stating that from now on all R. V. C. students may use the Campus rink, as arrangements have been made through the Bursar with the Students' Council. At the close of the meeting it was announced that not only were the basketball players needed to help entertain Queens, but all who were interested were counted on to do all they could to give the Queens' girls a happy week-end.

As there was no further business to be discussed the meeting then adjourned.

### THE HOLMAN.

The Holman continues on the road towards success. Last week the bill was an excellent one, and this week again the pictures are well worth seeing. Besides the main picture, the theatre is showing a comedy, an educational film and a special reel of nature pictures. These latter are exemplary of the degree of perfection which the art of motion picture photography has reached. The scenery is purely Canadian, and its beauty is well brought out by the camera.

The new manager, Mr. Kashin, from New York, has certainly made a decided improvement in the place. The house has been thoroughly renovated, and the pictures which he has booked are certainly appreciated by those who are in the habit of attending the theatre and the many who are fast becoming patrons.

### CERCLE FRANCAISE.

Owing to the fact that the Mock Parliament holds its meeting to-night, it has been decided to postpone the meeting of the Cercle until Wednesday next, February 4th. Further details will appear in the "Daily."

## ARCHITECTS ARE AGAIN TREATED

**Mr. Warwick Gives Sound Advice on "Composition."**

Last night, Septimus Warwick, F.R.I.B.A., gave some good advice to the Architecture members in regard to competitions and competitive drawings. In his opinion, the young man has as great a chance as the older and more experienced architect. But in the event that the competition should be lost, the competitor has the satisfaction of having overcome a number of problems which presented themselves in his design.

Competitions are divided into two classes: The open competition, in which everybody is invited to submit a design living up to the specifications stipulated; and the limited competition, in which a few practising architects are asked to submit designs. A second division of the latter is that in which several are invited and others allowed to compete.

In entering a competition, the following points should be borne in mind:  
1. The conditions of the competition should be lived up to the letter.  
2. That the style of the assessor's architecture should be disregarded entirely. (It is decidedly unwise to attempt the assessor's own style.)  
3. The preliminary sketches should be drawn out to a small scale, 1-16 in. or 1-32 in.  
4. The competitive drawings should show a simple straightforward. Suitable proportions will follow in the elevation and interior detail upon the foundation of a good plan.

The conditions should express the construction of the building and should be well studied as to economy and suitability.  
Specifications.—The report going with the competitive drawings should specify materials of a character suitable to the building, and of a quality made possible by the amount allowed for the building.

After these interesting items, Mr. Warwick showed by illustrations that the style of an assessor's own work did not in any way influence him in his decision. The illustrations showed work of Mr. Waterhouse, and buildings on whose preliminary drawings he had been the assessor.

Al though competitions are not so much in favor in Canada as in England, yet participation in any which came along is of great value to the architect or would-be architect. The winning of a competition by a young man practically ensures a practice.

Mr. Warwick's final admonitions were that a competitor should keep his design as simple as possible and keep well by the limits of the competition, and if defeat should be the result, "be philosophical about your loss," and enter the next one.

The conclusion of the address was followed by a general discussion with the speaker on various local competitions, on drawings, and those most acceptable in a competition, and the general methods adopted by assessors in arriving at a decision.

Days and nights go speeding past;  
Life itself doth pass away;  
As the river rushing fast,  
Men hasten by, and may not stay,  
Though they would its sting ignore,  
Fools the doom of sin endure,  
Retribution cometh sure.

### THE BODY.

This body is a nest of loathly sores;  
A dank and slippery skin doth wrap it round;  
And from a thousand pores oozing pores  
It sendeth out its stench, like an open wound.

### COMPASSION.

As, reeking nought of self, a mother's love  
Enfolds and cherishes her only son,  
So through the world let thy compassion move  
And compass living creatures every one,  
Soaring and sinking in unfettered liberty,  
Free from ill-will, purged of all enmity.

## EXTENSIVE PLANS COMPLETED FOR THE MOCK PARLIAMENT

Eight O'clock To-Night in the Union—Dean Moyse Governor-General—Many Bills To Be Introduced—Very Few Seats For Spectators—Officials For Session Are Announced—Great Interest Is Anticipated.

As the time draws near for the opening of the Mock Parliament this evening, the members of both parties are on edge for the battle about to begin. It is expected that there will be some fiery speeches from the Opposition when the policy of the Government is made known in the speech from the throne, and the members of the cabinet are getting ready to bear the brunt of the attack.

Although the Government have refused to divulge what is contained in the speech, it is understood that many bills will be introduced that are in keeping with the spirit and necessities of the times. The Constitutionists, who are understood to be in favor of retaining the existing order of things, will oppose any measures which embody great changes, and everyone will watch with interest the result of the division at the close of the meeting to-night.

The parliament will open sharply at eight-fifteen o'clock, and, as everyone must be seated when the Governor-General arrives, it will be necessary for everyone who sits in the benches of either party to be present by eight o'clock at the latest. The seats reserved for the spectators are necessarily very few, and those who intend to occupy them must arrive at an early hour if they wish to secure a position of advantage, or indeed, secure a position at all. It is understood that the students will all be seated on the benches of one or other of the parties, and the spectators' seats will be kept for the students of the Royal Victoria College and graduates and outsiders, of whom a very large number have already signified their intention of being present. It is impossible to estimate what number will be present, as anyone is free to attend, and the numbers will only be limited by the capacity of the hall.

Prominent figures at the parliament to-night will be:

Governor-General—Dean Moyse.  
Speaker—To be elected.  
Prime Minister and Secretary of State for External Affairs—J. C. Farthing.  
Minister of Finance—E. C. Common.  
Minister of Labor—V. Barre.  
Minister of Reconstruction—H. M. Fife.  
President of the Privy Council—J. L. O'Brien.  
Minister of Justice—B. Claxton.  
Minister of Militia and Defence—D. H. Macfarlane.  
Minister of Public Works—C. Hanington.  
Minister of the Interior—D. Ambridge.  
Minister of Trade and Commerce—J. B. Rutherford.  
Minister of Railways and Canals—J. Hall.  
Minister of Agriculture—F. C. Peterson.  
Postmaster-General—C. Hebert.  
Minister of Mines—H. B. O'Hair.  
Minister of Marine and Fisheries—E. D. A. McGreer.  
Minister of Colonization and Immigration—P. A. G. Clark.  
Minister of Health—N. E. Peterson.  
Ministers without Portfolios—R. E. Reford, R. S. O'Mera.  
Solicitor General—J. Gallery.  
Under Secretary of State for External Affairs—A. Terroux.  
Parliamentary Secretary for Soldiers'

Civil Re-establishment—B. deB. Millidge.  
Leader of the Opposition—W. H. Biggar.

Clerk of the House.  
Usher of the Black Rod.  
Sergeant-at-Arms.  
Page—Master Lamb.

Proceedings of Parliament:  
Election of Speaker.

The Governor-General formally opens the House with a speech from the throne.

The Speaker informs the House that the usual privileges have been granted to the House by the Governor-General. A bill introduced, and will be moved and read a first time, only "pro forma." The Speaker, standing on the upper step of the throne, makes the usual remarks about the Governor-General's speech.

It is moved and seconded by two members on the Government side of the House that the address from the throne be accepted.

(1) This address may be debated and amended like any other resolution.

(b) The question may be put upon each paragraph separately or upon the address as a whole.

(c) A debate may take place on the address, but when an amendment is proposed, the discussion can be strictly confined to the subject matter of this amendment.

General Information—

The clerk, the recording officer, sits at a table near the Speaker.  
The Sergeant-at-Arms sits at a desk near the bar and attends the Speaker with a mace.

Notice of Motion—

When a member of the House has prepared his motion he will hand it to the clerk.

All motions shall be in writing and shall be seconded before being debated or put to the chair.

When a motion is seconded, it shall be read by the Speaker.

HE WAS GOING TO BE SOMETHING

A colored man in Philadelphia requested his employer to release him so that he could go South.

"What do you want to go for, Lafayette?"

"Cos I've called to a church down dar."

"Called to a church? What are you going to be?"

"Ise goin' to be sumfin. I dunno wheder I be do pasture or de sextant or de vestreman; but Ise goin' to be sumfin."

"FAIR PRICE" MERE CHIMERA.

Chicago.—Executive of five of Chicago's leading retail stores have fixed a "fair price" list for clothing. A man's suit should sell for \$24.50, they announce, and other articles in proportion.

A newspaper reporter sent out to buy one of the \$24.50 suits reported that it could not be done. "The best I could find," he reported, "was one place where they offered me a cut price vest—just reduced to \$24.50."

## Macdonald

### HOW ABOUT IT?

There is a traditional custom carried out at Macdonald which at the present day seems to warrant a little discussion. It is the so-called "Grace" sung before each meal in the dining hall. It originated with good intentions, but of late its purpose is but a shadow, a fact self-evident in its daily expression. Such a state warrants two things—a little life in its improvement, or abolish it in the daily programme. As numerous efforts have been made to improve the singing of the "Grace," with no result, the most feasible thing seems to be to cut it out.

To this, man will say, how can such a custom so traditional to Macdonald be dropped? Others will say it is a religious asset to the college life. There was a time when traditions conveyed a meaning in life, but the war showed that they could be well forgotten to a good effect. As for a religious asset, the present "Grace" is a mockery. This will be affirmed by those who have been accustomed to a daily "Grace" in "Grace" but a disgrace.

Their homes. At present it is not a "Grace" has had one noticeable effect in the dining hall, and that is a persistent irregularity at the meals. Many students come late to meals on purpose, for the custom is enough to get on anyone's nerves. Ten minutes is often wasted standing at the tables to insure enough vocal emphasis to carry out its singing. There would be no harm in abolishing this custom, and it would be well worth trying. Other college dining halls get along without it, and in such cases it is noticeable that there exists a prompt and business-like atmosphere, which does not exist in Macdonald dining hall.

This is really a Macdonald old day, on account of the most elaborate Speaker which took place last night in the Men's Gym.

### THE SUGGESTION TO BRING HOME THE DEAD SOLDIERS

Undertakers' Journal, in a "Plain Business Talk" Gloats Over Prospect of Prosperity in Graveyard Business Without Increased Death Rate

(From the Indianapolis News)

When the return of the bodies of American soldiers buried in France was the subject of debate in the house a few days ago, Representative Caldwell obtained permission to print in the Record an extract from the Casket, a journal devoted to the interests of undertakers. The article, headed, "Between You and Me," asks Mr. Funeral Director to suppose that "upon one of the few bright, sunshiny mornings we have vouchsafed to us in this year of peace, strikes and high prices, some one were to come into your office and tell you that he had a scheme for increasing the number of funerals this year by more than 50,000, what would you do about it?" The Casket says that this suggestion is not made by a lunatic, but is a plain business talk, a matter of dollars and sense, plus sentiment. Then comes this:

"Extra Business, Gentlemen." "In alien soil there lie more than 50,000 American men who died in battle or of disease during their tour of duty abroad. . . . For nearly every American soldier returned, some funeral director will be called on to perform the necessary duties of reception and burial. Extra business, gentlemen, legitimate, patriotic, kindly, sympathetic, remunerative extra business. No increased death rate, no additional number of widows and orphans. Only the final laying away of America's sons in the bosom of their dear motherland. The congress pauses in its votes to hear the expression of the public's wishes. What are you going to do about it?"

Recently there has been renewed agitation to have the bodies of the soldiers sent home. Many of the requests come from the fathers and mothers who will not be satisfied until the graves of their soldier dead are where they can be visited and cared for. In time the American government will bring home the bodies of those who fell if the relatives want this done. One thing should be made sure before any definite action is taken. Those who will have the decision to make for the government should know whether the demand for the return of the bodies comes from the fathers, mothers and other relatives or whether the movement is fostered by undertakers who are urging "extra business, gentlemen," and asking their fellows what they are going to do about it. Those undertakers who are good citizens should repudiate any such proposal.

Heard of Movement.  
Alfred B. Gawler, secretary of the Washington branch of the National Funeral Directors' Association, admitted having heard of a movement by undertakers to urge bringing home the bodies of American soldiers, but denied that it was approved by his organization. "I do not know what disreputable undertakers may be doing," he said, "but I do feel assured that no reputable funeral directors and no organization of standing is in any way connected with any such propaganda. It is a shocking thing to think

### MACDONALD TRIMS D.S.C.R.

Hard Fought Contest With Score Of 6 to 2.

The reality that Macdonald has plenty of hockey material was even more forcibly brought to light yesterday afternoon than at previous practices. This material was not confined to the regular four years students, but in the D.S.C.R. good style was also shown.

In the first session, the students seemed to exhibit more speed. This, undoubtedly, was due to the regular workouts they are getting under their enthusiastic captain. The entire game was characterized by stiff checking and shooting, and in this Laurie, Buchanan, Reid and Boulden were noticeable. In the second half of the game, the D.S.C.R. seemed to come more to its own, going out with that old spirit to win, with the result that by a little team play they succeeded in shooting two goals, although, when the concluding whistle blew, the score stood 6-2 for the students.

The game should enthrall both teams, and at the same time show the necessity of team play even to a greater degree.

The teams and summary:  
D.S.C.R.—2 Mac. Students—6  
Underhill.....Goal.....Dechaine  
Reid.....Defence.....Cooper  
Dolphin.....Defence.....Welsh  
Anderson.....Centre.....Buchanan

### SWEDEN AND THE OLYMPIAD.

To the great majority of people the world over, it is probably a matter of indifference whether one man can hop, skip and jump farther than another, but to a good-sized minority the omission of this event from the next Olympiad was a matter of grave regret, and its restoration is equally matter for satisfaction. Sweden, perhaps, feels the satisfaction more generally than any other nation, for the conviction is abroad in that country that a Swede will be able to hop, skip and jump with more longitudinal agility than any competitor. And similar relief is found

### BELGIUM'S GRATITUDE.

Belgium and Britain have a high regard for each other. It is impossible, of course, that it should be otherwise after the events of which the world knows. Belgium, too, and in that the Belgian sovereigns have given the example, knows how to do the graceful thing. And that is a very valuable factor in the harmony of international relations. The happy knowledge of the art de vivre between nations has prompted the Belgian Government's courteous offer to return Captain Fryatt's vessel, the Brussels, to England, though she was recently adjudged by the prize court to Belgium. It was in the Brussels that Captain Fryatt was made prisoner by the Germans.

### Quebec Takes Lead

The declared housing policy of the Quebec Government is to spend its apportionment of the Federal loan in the promotion of garden suburb and garden village development, which indicates that Quebec will lead the way in Canada in this important social movement. By this method of procedure, large blocks of suburban and country land can be bought at low figures and thus the greatest obstacle to cheap and better housing is removed.

The Sherbrooke Housing Company has acquired a beautiful site of 51 acres, with about 1,500 feet frontage on the Magog river for the sum of \$51,000. The movement illustrates a fine spirit of co-operation among government authorities, manufacturers and citizens. The Connecticut Cotton Mills Co., situated at Sherbrooke, have already experimented at their home plant at Danvers, Conn., in garden village housing and have been so satisfied with the results that they offered to extend their plant at Sherbrooke at a cost of \$2,000,000 on condition that the city of Sherbrooke will co-operate with them in the model housing of the workers. Sherbrooke has responded. The Quebec Government, on the advice of Dr. Nadeau, Housing Director, came forward with a loan of \$500,000 and Mr. F. G. Todd, their town planning adviser, has laid out the site on modern lines. Ten houses have already been completed and the return of the building season will witness great activity at the garden suburb of Sherbrooke.

Other garden suburb projects in the province of Quebec include a scheme for the workers of the Riddell Pulp & Paper Co. at Kipawa. The town plan of which has been prepared by Mr. Thomas Adams and where 45 houses have already been completed, a small model development at Ste. Anne de Bellevue for the employees of the Garden City Press Co., a garden suburb intended to house about 300 families in the vicinity of Hull and a project for a Confederation Garden Suburb for Quebec city that will involve the expenditure of \$1,250,000 and will house 500 families.—Alfred Buckley in Conservation.

of. The records of the National Funeral Directors' Association and of the United States show where they stand. . . . Personally, I think it would be a great mistake, and that in 90 per cent. of the cases there would be disappointments in what was expected. . . . Before any steps are taken for such a wholesale removal of dead bodies, thought should be given to every phase of the problem, and there are numerous.

## AN ABSURDITY.

Rustler, the dramatic critic, recently took his wife with him to attend a first performance. As they were leaving the theatre he asked: "Well, dear, how did you like the play?" "Quite well," said Mrs. Rustler, "but there was one impossible thing in it. The second act takes place two years after the first, and yet the family have the same servant."

## REVIEW OF FIRST HALF OF HOCKEY

With Season Half Over McGill Stands in Good Position.

### NEED SUPPORT.

Intermediate Team Has Gone Through Season Without a Single Defeat

With the hockey season well on the way to the half mark, a glance at the situation that McGill enjoys in that sport shows that it is perhaps more favorable than has been the case for several years.

Besides having teams entered in three City Leagues, and in the Intercollegiate Hockey Union, there is an active inter-class schedule that has been arousing considerable interest.

The senior sextette has played three of their scheduled games, having won two and lost one. They have defeated Westmount and St. Ann's and have lost only to M.A.A.A. They played their first intercollegiate match last Saturday, winning handily over Queens by the long end of a 3 to 1 score. Next Saturday they will meet U. of T. at the Mount Royal Arena. This will be the last opportunity of seeing an intercollegiate match in Montreal this season, as McGill's remaining games will take place in Kingston and Toronto. It is hence expected that one of the largest crowds of the season will turn out to witness it. Tickets are now on sale at the Union, the price running from fifty cents for general admission to one dollar for box seats, and all students are advised to buy their tickets as soon as possible, as later on the demand will probably be quite brisk.

The Intermediate team has been showing the way for its adversaries right from the start. They stand at the head of the league, having gone through the season so far without suffering a defeat, while five victories have been chalked up to their credit. In spite of the fact that the games are held at a convenient time, six on Saturday afternoons, and that an excellent brand of hockey is exhibited, the support that the students have been giving the team in the past has been very poor. Certainly with a winning sextette to back, and with the Victoria rink only a few minutes walk from the college grounds as well as with a moderate admission charge of only twenty-five cents, there is no reason why a large crowd of rooters should not be on hand to cheer on their team.

## MANY APPLAUDE MAJ. M'DONALD IN UNION HALL

Says That U. of T. Received Aid From Ont. Govt.

### GLOOMY OUTLOOK.

Graduate and McGill University Should Take More Interest in Each Other.

Those who gathered in the Union, interested in sports, were well pleased with the address of Major George MacDonald. He is one of our graduates who will always know his Alma Mater and will do all he can to help her.

In the opening of his address he spoke on how that Toronto University received endowments worth \$750,000 from the Ontario Government, while McGill received very little from the Quebec Government, and obtained most from private individuals. The revenue of McGill is not much greater than it was before the war, and this is rather a poor outlook, as everybody knows the difference in value of money. The financial business of McGill is handled by twenty-five governors, who are capable and very prominent business men who have an interest in McGill. These are appointed for life, and when one dies the other members decide upon who shall fill the vacancy. These men are doing everything to their utmost for McGill, but still there is no reason why our graduates should not help, not individually, although this helps greatly, but as units.

Why do not our graduates keep in touch with the University? Both should be blamed for this. Our graduates would be able to help in many ways, by offering suggestions and criticisms as a little. There has been a graduate unit in Montreal lately who has helped the library and has done a few other things, but there should be more of these.

The Stadium was suggested by our graduates and threshed out by the Students' Council, with the result we have a splendid sports field. We should try and keep in touch with our graduates, and to help this out a Reunion is being planned for 1921.

A very noteworthy point brought up was for the building of dormitories for the students. The plans are ready, but the money is needed, and our graduates would only be too well pleased to help us out in this line. The students themselves should come forward with any suggestions, as they would be very acceptable. There is no reason why it could not be run on a paying basis as the Union is.

The meeting was then left open for discussion. The president, Mr. Nicholson, then spoke a few words to the effect that the graduates should take an interest in the University and that the University should take an interest in her graduates.

### A GOOD REASON.

Once a year the newboys of London are given an outing some place on the Thames River, where they can swim to their hearts' content. As one little boy was getting into the water his little friend said:

"Johnnie, you're pretty dirty!"

"Yes," replied Johnnie, "I missed the train last year."

## HOCKEY GAMES IN FACULTY OF ARTS

Exciting Games Last Night—Seniors and Freshmen Defeated.

Last night proved a banner night for the Faculty of Arts so far at least as hockey was concerned. A very poor turn out of rooters proved a disappointment but for those who were present a high brand of hockey was put up. The first game was between the first two years and resulted in a victory for the Sophomores. At half time the score stood 2 to 1 in favor of the latter, but by hard work this score was further increased, the final score being 6 to 1. The line-up was as follows:

2nd Year. 1st Year.  
J. McDougall...Goal...Amaron  
Lyall...Centre...Fenson  
Badger...Defense...Cralk  
Moore...Defense...Johnson  
MacLean...R. Wing...Cantley  
Copeland...L. Wing...Martin  
A. MacDougall...Subs...Ross  
Harris...Subs...

The second game proved particularly interesting. The final score in favor of the Juniors was 9 to 1, but was no indication of the general playing. Fourth year played an exceptionally good game and caused the third year men considerable anxiety at some times. The line-up was:

3rd Year.  
C. B. Smith...Goal...L. Kern  
J. Taylor...Defense...Borden  
J. L. O'Brien...Defense...McCall  
Townsend...Centre...Pratt  
P. Silver...R. Wing...M. Kern  
Martin...L. Wing...Smith

### A "SHORT STORY."

Once upon a time there was a Canadian who regretted the sad lack of Canadian literature.

In a bookstore he would moon about a counter of Canadian books, and his soul was filled with sorrow that there was no Canadian Shakespeare or Scott, or even a Canadian Wells or Kipling.

Then he would buy a copy of *Dere Mable* and go out regretting exceedingly that Canadian authors were not producing a literature worthy of his patronage.—Cribbed.

## DINNER TO SIR ARTHUR CURRIE

Will Serve As Inauguration Of the Officers' Training Corps.

The banquet to be given by the C.O.T.C. to General Currie on Friday evening in the Union promises to be very popular. Not only will there be a large number of returned officers and men, but also a number of undergraduates.

This dinner will not only serve to extend a hearty welcome to Sir Arthur Currie, but also to start off the C.O.T.C. for the season. The C.O.T.C. is now practically an institution of McGill and plays an important part in our college life. As in other years, members of the C.O.T.C. will go on a touring trip to various camps.

The success of this banquet depends entirely on the co-operation of the students, and therefore as many students as possible should turn out to give Gen. Currie the welcome which he rightfully deserves, as well as participating in the inauguration of the C.O.T.C.

The guests of the evening will be Sir Arthur Currie, Gen. Birkett, Gen. McCuaig, Gen. Armstrong, O. C. of the district; Col. Hill, General Staff Officer; Col. Vipond, Col. Peters, Col. Eve, of the Admiralty Submarine Detector; Col. Gerald Hanson, Dean Moyle, Col. Scrimber, V.C.; Col. Bagin and Major Macdonald. Col. Starke will act as chairman.

Tickets for the dinner are on sale in the Union, the Arts Building, the New Medical Building, the Engineering Building and the Law Building. Get your ticket to-day. Price \$1.50.
